SOLVENT CLEANING: DEGREASING OPERATIONS

Course #233

This one-day course provides baseline information on a variety of degreasing operations and equipment. Topics include the various solvents used, types of degreasers and their associated emissions. Discussion topics will also include the Title III MACT standards, state RACT guidelines and local regulations. An afternoon field visit (mock inspection) at a local regulated facility will allow students to receive firsthand experience inspecting a solvent degreaser. Please bring any applicable safety equipment that you are required to bring to the field visit.

Tuesday, June 29, 2004

8:30 a.m. - 4:30 p.m.

CAL-EPA Building

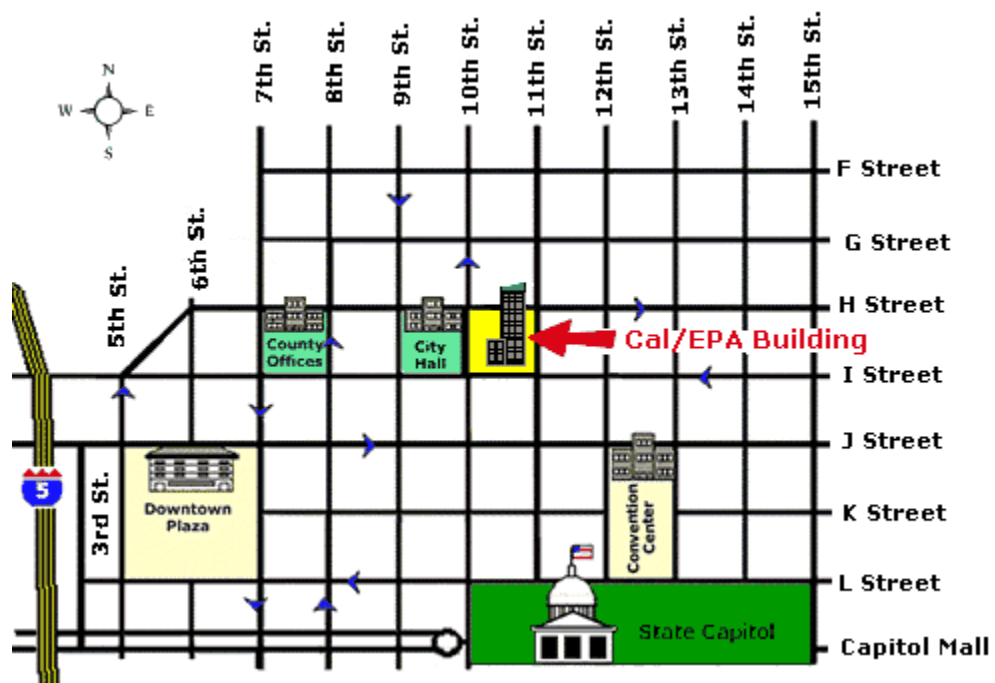

1001 I Street, 1st Floor, Training Room 1

Sacramento, California 95814
